Unit 1

Buying A Car

Ad

Announcer: It's the end-of-the-year sale, and here at Car City you'll find fantastic bargains! We have brand-new and used cars, economy-sized cars, and luxury models, all at reasonable prices! Don't make the same mistake that Ron Gardner made. He bought a used luxury car somewhere else and isn't satisfied with it. Ron, tell us about it.

Ron: That's right. My name's Ron, and I just bought a used car about a week ago. If I had come to Car City first, I could've bought the latest model of the same car at the same price! And with extra features, too.

Announcer: Lara Davids, tell us about the wonderful deal you got at Car City.

Lara: Hi. I'm Lara! I just bought a brand-new Beamer Coyote. It's so beautiful! It's automatic and has all the latest features! The best part is the price. I paid ten percent as a down payment, and I'm paying the rest off in monthly payments. When I told my sister about it, she said that she had just bought a car here, too, and had gotten a really great deal. Everybody's coming here, so if you don't come now, there won't be any cars left!

Announcer: You heard it, folks. Car City is the place to buy cars. We guarantee you won't find a better deal anywhere!

Buying A Used Car

When buying a used car, the first rule is: Don't go alone! Get a friend to go with you. Also, if you decide to buy a car through a used-car dealer, try to have someone recommend a good dealer.

Next, decide what kind of car you have in mind. Consider the different features that you'd like your car to have. For example, do you want an automatic gearshift? Do you want the latest luxury model, or something older?

When you have found a car you like, ask the dealer to let you drive it. Before you make up your mind, you ought to have it checked by a mechanic. If he is satisfied with it, you can then start bargaining with the dealer about the method of payment and price.

The Car

- Here it is. Only \$5,000.
- Hmm. This isn't exactly what I had in mind.
- Well, I could lower the price to \$4,000.
- No,... this just isn't what I need.
- I could paint it for you. What color would you like?
- No. I'm sorry. This car simply isn't what I wanted.

Conditionals: Real

- If I were president of this company, I would have everyone work only four days a week.
- If you don't finish this, you won't be working at all!

Cliff Terror

Susan and Ellen had been looking forward to their first hiking trip with the University Outdoors Club. Susan was a little afraid, however, because she had never gone hiking before.

"What if I'm too slow? I'll be left behind, and get lost," she said.

"Don't worry," answered Ellen. "If you get tired, I'll have some other student carry you up the hill."

The next day, the group left the city at 5 a.m. as planned. By the time they reached Canyon Park, the sun had risen. They had been hiking for two hours when Susan said, "You were right. Hiking is fun! If I had known how easy this would be, I wouldn't have been so afraid."

Suddenly Ellen realized that they had taken a wrong turn.

"Where are the other members of the Outdoors Club? I don't see them anywhere. I think we're lost."

"Oh, no! I knew I shouldn't have come. Who's going to rescue us? Imagine being here all night!"

"Take it easy, Susan. I didn't get us lost on purpose."

The girls arrived at a cliff, and saw an enormous pool of water.

Ellen hesitated and said, "Well, we can either go down by rope, or we can jump. Let's use the rope. I'm too scared to jump."

"You? Afraid?!" exclaimed Susan. "You were the one who wanted to go on this hike. Let's jump. It's too rocky and slippery to climb down."

"Susan," said Ellen, "I've never told you this, but I don't know how to swim. I just can't jump into that water."

Susan followed her friend unhappily down the cliff. They had just arrived at the bottom, when suddenly she slipped and fell.

"Oh... my foot!" she cried. Ellen rushed to her side.

"Here. Let me have a look. It's not bleeding. It's only a minor injury." But that didn't stop Susan from complaining.

"Ellen, if we get rescued and I recover from this, I will never listen to you again!"

Unit 3

Problems

Family

Hi, Marcy. This is Lori. Would you do me a favor? I'm really stuck. Could you pick up my dress at the dry cleaners for me? I wanted to wear it to the party tonight. I was supposed to get it this afternoon, but my car is still at the garage. The mechanic said that I needed to have a lot of work done on it because of the accident. I've had new tires put on, they've repaired an oil leak, and the brakes needed to be replaced. Thanks a lot. Bye.

A Foreign Affair

"Danny, are you ready yet?" asked Erica impatiently. "If you don't hurry, we're going to be late."

Danny had just finished getting dressed. He was wearing a suit, just as he'd promised. He had even agreed to wear a tie. Danny, a scientist, had never enjoyed formal parties, but now that his wife had chosen a career in politics, he knew he'd have to attend lots of them.

"You look wonderful," said Erica, quickly tying Danny's tie. "Now if you'd only smile..."

"Yes, I know," said Danny. "Smile and be polite."

"Yes, and please don't insult anyone this time, or spill your drink on them."

"Hey, that wasn't my fault. The host's dog was chasing me, and I tripped. I can't help it if I spilled my punch on that woman's dress."

"*That woman* was the wife of the foreign minister! I'm just grateful she had a sense of humor about it. My career could have been ruined."

"Do you think that annoying reporter from 'Chat Magazine' will show up again? Last time, he kept asking personal questions and making bad jokes. If I run into him, I can't promise what I'll say or do."

Erica and Danny arrived at the party. They entered the room and were greeted by several acquaintances.

Danny walked around the room. He heard some people gossiping, and others arguing about the government and the next elections. He saw the reporter, but carefully avoided him.

Everyone was shaking hands with each other and patting each other on the backs, pretending to be friendly.

"I have nothing in common with these people," Danny thought, as he tried to hold a conversation with a wealthy businessman.

"Oh Danny, darling!" called Erica, who was talking to a tall, blonde woman. "Come say hello to Ms. Medina."

Danny looked up. "Uh oh," he thought. Ms. Medina was the wife of the foreign minister. How embarrassing! But Danny put on his best smile, and walked over.

"It's lovely to see you again," he told Ms. Medina, and put out his hand.

Ms. Medina smiled. "Maybe you should put that down first," she said, motioning to the glass in Danny's hand.

Danny blushed. "Yes," he said. "I think that's a good idea."

She Owes You a Favor

Barry was on his way to class in the morning, when he saw his friend Marcello.

"Hi, Barry," Marcello said. "You look tired! Were you up all night working on your history assignment?"

Barry shook his head. "If only I had been. You'll never believe what happened to me last night. At about one in the morning, while I was still working on my history paper, the phone rang."

"Who was calling you at that hour?" Marcello asked.

"It was Alison. She said she had gotten stuck. Her car had broken down in the middle of the highway," Barry laughed. "She told me that she had tried to push it to the side of the road. She sounded really worried. Being the nice guy that I am, I told her to take it easy, and that I would be right there."

"So, what did you do?"

"Well, she thought the problem was the brakes," Barry explained, "so I took some replacement parts. However, knowing Alison the way I do, I took two quarts of oil and a gallon of gas, too."

"She sure is lucky that her best friend is a mechanic," Marcello said.

"Yeah, but it would have been better for me if she had gotten stuck after I had written the history assignment," Barry replied. "I didn't get home until four in the morning! And the assignment is due tomorrow."

Marcello smiled. "Well, Alison is very good at history... and she does owe you a favor..."

Barry smiled, too. "You know what? You're right!. I think I'll call her right now!"

The Singer

Cindy loved to sing, but she had never sung in public because she was too embarrassed. Every year her mother encouraged her to sing in the school concert. Cindy wished she could be in the concert, but she always assumed that she wasn't good enough.

"Even if I tried, they wouldn't accept me," she thought.

But her mother insisted, so Cindy finally agreed to try.

On the Monday morning of the trials, Cindy was very nervous. She arrived at the auditorium very early, while it was still deserted. Gradually the students began to arrive.

"Cindy, I didn't know you could sing," said her friend Mara.

"Well, I thought I might as well try," said Cindy. "I don't care whether or not I'm accepted."

"Well, I do," said Mara. "I intend to be in the concert this year. Mrs. Blake said that I had a very good chance of getting the main part."

One by one the students climbed onto the stage to sing for the music teacher. Some of them sounded terrible. Cindy listened to all of them until it was her turn "Hello, dear," said the music teacher. "You may sing anything you like."

Cindy sang. Although she was tiny, her voice was deep and full. She sang loudly and powerfully. She forgot about all the other people in the auditorium.

When she had finished, the entire room was quiet. Everyone seemed as if under a spell.

"Cindy", the music teacher said at last, "that was beautiful! You are a singer!"

Get Your Money's Worth

by Kim Watson

When people are considering buying items which they will have for a long time, such as furniture, they want to get their money's worth. This means that: 1) they want to buy something they can afford, and 2) they want to be satisfied with their purchase.

However, people often have a problem when buying furniture. While customers look for reasonable prices, they also look for the best quality products, and these two things don't always go together. The reason for this is that they don't always know if something is a bargain or not.

Last week, Edith Shaw, a writer for a popular consumer's magazine, gave advice to buyers in her column, "Customers Come First." She recommended that people who wanted to buy furniture that was both affordable and of good quality should go to places that offered bargains all year long. She claimed that stores that offered great sales had most likely raised their prices before putting the items on sale.

"People with limited budgets should consider buying at places like Quality Bargains. Buyers can get brand-new inexpensive furniture there. It comes with a ten-year guarantee, and delivery is free. Buyers pay less and get quality, and that's a bargain."

Quality Bargains' manager, Tim Wright, says that their furniture is luxurious, the deals are excellent, and they accept a twenty percent down payment on all purchases.

"If you came to Quality Bargains, your furniture problems would be solved," says Mr. Wright. Wherever you go, know that there are places where you can get your money's worth, even if you are short of cash.

- Well, not exactly; what I wanted was twenty percent.
- Do you intend to accept the offer?
- I haven't decided yet.

Reported Speech: Time Aspects

Unit 7

Politics

News

We're back, and you're listening to WNWS, your 24-hour news station. And now, here's an update on the election results.

Just a few hours ago, Conservative candidate Ted Schmidt was defeated in local elections for the city council. In her live report earlier today, our reporter, Nancy King, pointed out that Schmidt had been involved in the defeat of the new crime law proposed last year and stated that this had probably hurt his chances in the election today. King spoke with Schmidt before the vote was in and reported that Schmidt felt sure that he would win, in spite of his vote on the crime law.

The winner, Liberal candidate Rosa Morales, spoke at a press conference just after hearing that she had won. She was quoted as saying that Schmidt's vote on the crime law was a key issue in the election. Before the election, Morales had promised voters that she would propose a new crime law if she were elected. In her speech just a little while ago, Morales stated that she planned to investigate all politicians suspected of committing crimes.

You're listening to WNWS. Stay tuned for the weekend weather report, coming up next.

Brown's Campaign Problems

by John Sharp

Yesterday at two o'clock, a fire was reported in the office of James Brown, the Liberal candidate for Northwood. Fortunately, Mr. Brown was out to lunch when the fire started.

Police believe that they are dealing with a serious crime, and arson is suspected.

However, an apparently worried Mr. Brown told reporters that he thought that someone had

tried to kill him. He said that someone wanted him out of the election campaign.

"If they had murdered me," he said, "the Liberals would have had to elect a new candidate, and they could have been defeated. Somebody definitely tried to murder me." Mr. Brown said that personal threats would not make him resign from politics, and he went out to meet voters in the town later in the afternoon. He said that he would continue to campaign to reduce unemployment, and that if elected, he would improve education and fight crime.

"In my opinion, unemployment, education, and crime are the most important issues we have to deal with today. I plan to do something about these issues," said Mr. Brown.

Despite Mr. Brown's suspicions, local police officers said that there was no evidence to suggest attempted murder.

However, they have opened an investigation, and are having the whole building searched for clues. At the moment, Mr. Brown is using another office in a building across the street. Police are keeping a close watch on the building.

New Manager

- Did you hear that Walker is hiring a new manager?
- Is he? I'm surprised that he would do that without discussing it with me first. Do you intend to do something about it?
- Yes, I do. I intend to speak with him right away.
- I don't like the idea of his hiring someone new from outside, when there are qualified people right here in this office.
- Yes. I agree that we don't need anyone new.

Reported Speech: Review

- Terry, John was here and he wanted to know where you were. He said that he was leaving the books on your desk. He also said that he wanted you to call him at home.
- OK, Bob.

Instructions

Forecast

- Dick: Today's guest on "The Home Repair Show" is Hank "the Handyman" Hanson. Hank is going to give us advice on how to get the house ready for winter. Hank, winter is coming. What's the first thing I'm supposed to do?
- Hank: Well, Dick, first you ought to have your furnace cleaned and inspected, and have any broken parts replaced. The furnace, or heater, is what keeps your house warm and cozy. And in this part of the country, if we didn't have heat in the winter, we'd freeze.
- Dick: That's for sure, Hank.
- Hank: The other important thing to do is to have your roof checked for leaks. If rain or snow were to leak in through the roof, it would damage your ceiling, your walls, and even your furniture. And we all know how expensive it is to have the house redecorated.
- Dick: I know what you mean, Hank. About two years ago, although I'd been planning to have my roof checked for leaks, I forgot. The following year, I noticed watermarks on my ceiling. If I'd repaired the roof right away, I could have avoided the problem.
- Hank: Dick, I always say, "If you take it easy this year, you'll have to replace it next year."
- Dick: That's good advice, Hank. Thanks for being on the show today. Join us next week, listeners, for more helpful hints on "The Home Repair Show."

City of Lakeview Recycling Tips

City of Lakeview Recycling Tips

A little bit goes a long way...

Plastic

- Please CLEAN and place all plastic containers into the bin labeled 'plastic'. These bins are located outside your homes and throughout the city so you can find them easily.
- Please donate non-recyclable plastic containers to the local kindergartens and middle schools. Teachers reuse these for projects...and to hold art supplies!

Paper

- Place all unwanted paper in the bin labeled 'paper'. Please DO NOT place dirty or food-stained paper in these bins, as this will result in us being unable to recycle the paper.
- When printing at home or at the office, use the double-sided option. Since you are printing on both sides, you will reduce the amount of paper you use by 50%.
- Reuse paper for coloring and art projects, or for grocery lists and notes!
- Paper and cardboard are also welcomed by kindergartens and middle schools for use in art projects.

Glass

- Please sort glass containers by color (after cleaning them thoroughly). Within each bin labeled 'glass', there are sections for *clear*, *green*, and *brown* glass.
- You can also donate your CLEAN glass to the community center for use in the art club. Any color and type of glass (including mirrors) are welcome.

Thanks to your cooperation, the city of Lakeview will soon be a cleaner and greener place to live.

Trash for Treasure

Jamie: OK, in this bag we have T-shirts. And here are glass bottles and jars.

Kevin: Hey guys... Whoa... What's all this stuff?

Jamie: We're getting ready to go to a 'Trash for Treasure' swap. We're gathering all the things we don't need anymore... like old clothes, books, glass containers... anything really.

Celia: ...and hopefully we'll find some useful stuff to swap it with! You wouldn't believe the great things people throw away! Like they say, "One person's trash is another person's treasure."

Kevin: Talking of treasure, these are awesome! Can I have them?

Celia: Yeah... Sure... Why not?

Kevin: Thanks! Oh, how about these glass jars? Now, these I could really use. They'll be great to store my homemade tomato sauce.

Jamie: You know, Kevin. Maybe you should come with us to the swap. It'll be a lot of fun. And you can come to my upcycling workshop to learn how to make a shopping bag

from old T-shirts!

Celia: You're finding so much here already, just imagine how much you would be able to find at the swap.

Kevin: Yeah, OK. I may as well check it out. After all, I'm saving these things from ending up in a landfill, aren't I?

Celia: Yes... but Kevin... there's just one thing. You also have to bring your own stuff to the swap!

Kevin: Oh... right.

Home Recycling Survey

Interviewer: Hi, do you mind answering some questions for a home recycling survey?

Woman: Sure, I always try and recycle as much as I can.

Interviewer: What objects do you recycle?

Woman: Well I recycle paper, cans, glass, and plastic bottles.

Interviewer: Do you have separate bins for all of those at home?

Woman: Yes, my apartment building has four separate recycling bins.

Interviewer: That makes things easy! Great. Thanks.

An Upcycling Workshop

Free Upcycling Workshop!

What: Join artist Jackie Douglas for two hands-on workshops about upcycling and sustainable art. Upcycling is creating beautiful and useful objects from unwanted items that would have otherwise ended up in a landfill. Jackie has been creating upcycled masterpieces for several years and has experience giving lectures and workshops.

Please register for workshops online no later than Wednesday, June 3rd at www.CFSAworkshops.com.

Where: The Center for Sustainable Art
204 Nurberry Road

When: Workshop 1: Monday, June 8th, 10:00 A.M. - 2:00 P.M.
Workshop 2: Thursday, June 11th, 6:00 P.M. - 10:00 P.M.

Workshop 1

What to bring: glass jars, glass or ceramic items you no longer need, buttons, beads, broken jewelry, mirrors, etc.

The project: In this workshop, we'll be making beautiful mosaics to create candleholders, coasters, and wall art. Jackie will explain the basics of mosaic-making and then let participants' imaginations do the rest! To help inspire participants, Jackie will display some of her own work as an example. **Please note:** Protective gloves and goggles will be provided for each participant. Hammers will also be provided to break the materials into small pieces. Proper safety precautions must be followed during this workshop.

Workshop 2

What to bring: plastic shopping bags (around 40), knitting needles (3-4mm), large crochet hook, and scissors

The project: In this workshop, we'll be creating a sturdy reusable bag from non-recyclable plastic shopping bags. Jackie will show participants how to knit yarn from plastic bags... so make sure to bring a good supply! You may also bring other materials like ribbon, buttons, and strips of fabric to decorate or 'jazz up' your bag.

There is a paid parking lot across the street. Show the attendant confirmation of your participation in the workshop and the parking fee will be waived.

Subject: Questions about workshop

Hi,

I've registered for Workshop #1 on Monday, June 8th. Since this will be my first upcycling workshop, I'm really looking forward to it!

Regarding the workshop, I have a few questions/concerns. I'd like to bring my 10-year-old daughter with me to the workshop. As we'll be working with broken glass... do you think this is appropriate for her age?

Also, I saw the note about parking in the poster. What can I use as confirmation of my participation in the workshop? I haven't gotten any e-mails confirming my participation yet...

Another thing, I'm very interested in participating in the second workshop. Unfortunately, the day and time don't work for me. Will this workshop be offered again in the future?

Thanks!

Helping the Environment

Narrator: Listen to part of a lecture on different ways to help the environment.

Lecturer: I'm sure you've all heard of recycling, which is making something new from something that has already been used before. Examples of recycling include melting down used glass jars to make new glass containers, and making napkins and paper towels from used paper. Recycling is always beneficial to the environment, but in order to break down materials and use them to create new products, the recycling process uses valuable resources like energy and water.

Today's lecture is about something you may be less familiar with: upcycling and downcycling — two other ways to help the environment. Unlike recycling, upcycling and downcycling don't always require the use of other resources to create new products.

Let's start with upcycling. Upcycling is taking old or unwanted materials and repurposing them into another practical product or into a work of art. Upcycling results in products of equal or even better quality.

Upcycling has been around for a while. In times where money and resources were scarce, people had no choice but to upcycle. For example, in North America in the 1930s and 1940s, it was not uncommon to see a broken door turned into a table.

Upcycling possibilities are endless. For example, you can weave together a colorful quilt from scraps of old sweaters, or use the tops of glass bottles to make wall hooks. What you can upcycle is only limited by your imagination!

Downcycling, on the other hand, means taking materials and reusing them as a lesser quality product. Downcycling usually only delays a certain item's fate from ending up in the garbage heap, as opposed to preventing it. Downcycling isn't as great as upcycling but it's still a good practice. For example, you can downcycle old clothes by using them as rags to wash the floor or reuse old newspapers as packaging material when you move.

A little creativity can go a long way in making our world a better, greener place!

On the Film Set

Mel: I assure you James, I intend to marry Alan!

Ralph: It's Phil. His name is Phil, not Alan.

Mel: I'm sorry, I'm sorry! I guess I'm a bit nervous. It's my first time on a film set!

Ralph: Don't worry! Just relax.

Mel: I know, but it's so hot under these lights. My mic keeps coming loose.

This is all so different from stage acting. I have to keep reminding myself not to look at the camera. And each scene has so many takes!

Ralph: You'll get used to it.

Mel: What about you? I guess you're an old hand at this, right?

Ralph: I guess so. But acting's not the only thing I do.

Mel: Really – what else do you do?

Ralph: Well lately I've been doing some script writing. In fact, I'm in the middle of my own screenplay right now.

Mel: Really? That's exciting!

Ralph: Yeah, it is.

Director: OK. Places everyone. Scene 21, take 19! Action!

Mel: I assure you James, I intend to marry... Alan!

Director: Cut!

Working in the Movie Industry

Brandon: So I hear you work in the movie industry. Are you an actor?

Lily: No, actually I used to be a makeup artist but now I'm a costume assistant.

Brandon: Oh, why'd you switch?

Lily: I was working on this film with these amazing period costumes and I decided I wanted to learn more about costume design.

Brandon: So what does your role include, now that you're a costume assistant?

Lily: I help dress the actors, check for continuity between scenes and do last minute alterations.

Brandon: Sounds busy! I guess you need to be very detail-oriented.

Digital Cinematography

In our Digital Cinematography program, students are introduced to the basics of modern camera and lighting techniques used in motion picture films. They then advance to the more technical details of cinematography, including camera, lens, format, and lighting instruments. Students will learn the details of exposure, set lighting, and camera movements.

Through training and experience, students will gain an in-depth knowledge of the job of Director of Photography, and understand its importance in filmmaking.

For students wishing to pursue a career in cinematography, this program prepares them for all aspects of the field. Students usually complete their degree within four years of beginning the Digital Cinematography program. Upon graduation, they'll have gained the experience necessary to begin employment.

Digital Technology and the Movie Industry

- Narrator: Listen to a podcast on changes in the movie industry.
- Carlos: Good afternoon everyone. I'm Carlos Dante, host of the weekly podcast, 'Then and Now'. Today, we're going to look at digital technology and how it's changing the movie industry. We have film school professor Jim Herman here to speak with us. Welcome, Jim!
- Jim: Thanks for having me.
- Carlos: I heard that it's now possible to shoot a full-length feature film using a smartphone. That's a pretty big change for the movie industry, isn't it?
- Jim: It certainly is! Actually, it may not be accurate to even use the word 'film' anymore.
- Carlos: Why is that?
- Jim: Well, if you're using digital technology, there's no 'film' involved, just computer files. Do you know where we get the word 'film'?
- Carlos: Hmmm... is it because the first movies were made with reels of film?
- Jim: That's right. In the early 1900s, movies were made with film reels. Film is actually a light-sensitive celluloid material that comes in 400-foot rolls. Today, film reels are becoming a thing of the past, as movies are being made with computer software.
- Carlos: So can you tell us why most movie producers prefer using digital technology over film these days?
- Jim: Well, first of all, digital technology is cheaper since you don't need to pay for expensive rolls of film. It's also much simpler to use. Filmmakers, or 'moviemakers', can shoot with a digital camera directly onto an SD card - a type of storage card for digital files. This is much more efficient. The editing process is also much less tedious and can be accomplished in a fraction of the time. Videos can be reproduced as many times as necessary without losing quality.
- Carlos: So why isn't everyone using it?
- Jim: Good question. Many moviemakers prefer to stick with film out of tradition and familiarity with the older technology. Film also allows for more flexibility with light exposure. Some cinematographers feel they can create certain visual effects

that can't be accomplished with digital technology.

Carlos: But most moviemakers are making the switch, aren't they?

Jim: Yes, indeed. Digital technology offers a huge advantage for young aspiring moviemakers. There are now plenty of Web sites that allow you to post videos which can instantly be seen globally. This is a game changer!

Carlos: That definitely sounds like a big plus for new moviemakers! Thank you for speaking with us today, Jim!

Jim: You're very welcome.
